Nothing Doing in Wall Street After 1 O'Clock Yesterday Afternoon.

New York, June 26.-The decision to pay tribute to the memory of ex-President Cleveland by ending the stock exchange session at I o'clock today served to fur-ther curtail the already shrunken pro-portions of the dealings in stocks. The session was insignificant in every way. Pacific Mail ... Fluctuations in prices were narrow and shifting in an uncertain manner.

shifting in an uncertain manner.

The day's incidents were little calculated to stir the market from its apathy. The redundant condition of the money market gives promise of being increased by the week's continued inflow of cash to New York and borrowing terms are so easy as Republic Steel York and borrowing terms are so easy as to offer no urgency to holders of secutities to realize on that. At the same time Republic Steel ... do preferred ... Rock Island Co... rities to realize on that. At the same time demand for securities is well-nigh stagnant. The market in consequence is almost dead. There was some quiet buying today, which was attributed to the further influence of the cheerful views expressed by J. P. Morgan yesterday before returning to Europe. Discontinuation of the pressure against the Rock Island is relieving the market from a depressing factor and contributed to the firmer tone. The only semblance of activity occurred just at the close, when prices enjoyed an uplift that placed half a dozen of the leaders a point or more over last night's level.

stock market by the fact, rates for time loans were quotably higher today and a renewed advance in foreign exchange rates suggested a possible recurrence of the outward flow of gold. Discount rates at Berlin, however, were lower today, that being the principal source of expected de-mand on the United States for gold. The nference is that Berlin's preparation for he semi-annual settlements is completed. The New York trust companies are with cash necessary to establish the 10 per cent reserve level made obligatory upon them by the law on July 1. This will call for an amount estimated at \$20,000,000, and this may account for the rather firmer tone of the money market. After July 1 the show of firmness in the money market is expected to relax again.

REVIEW OF TRADE.

New York, June 26.—Bradstreet's tomorrow will say:

Trade this week has taken on most of the characteristics of a midsummer period. Retail business has been helped by warm weather in most sections and by widespread reduction sales. Johbing widespread reduction sales. Jobbing houses have received moderate filling orders and made the usual clearance sales. Fall buying has been and is cautious, but feeling is conservatively optimistic. Such lines as leather, staple worsted wools, agricultural implements and a few lines of steel products are more active, but he great industries as a whole are below promise to be more widely indulged in than for some years past. The railroads of the country are making preparations for crop moving and car repair material s being taken more freely. Labor is still
